

ABSTRACT

A substantially light-insensitive black and white monosheet thermographic recording material comprising a support and a
thermosensitive element, the thermosensitive element containing a substantially light-insensitive organic silver salt, an organic
reducing agent therefor in thermal working relationship therewith, a binder and at least one stabilizer selected from the group
consisting of 1-phenyl-5-mercaptotetrazole compounds in which the
phenyl group is substituted with a substituent containing an
optionally substituted aryl group; and
